SUSTAINABLE RESULTS

By investing your funds, we take a long-term view and focus on helping our clients create a new and better future. The attitude of modern society towards economic processes has changed. In responsible investing, ESG factors are coming to the fore.

E (ENVIRONMENT)

Careful and responsible attitude towards the environment

S (SOCIAL)

A high level of social responsibility

G (GOVERNANCE)

The quality of corporate governance

STRATEGY OUTLOOK

IFO's business strategy is based on more than just asset diversity and competent diversification.

It takes into account how the business performs in social, ethical, economic, cultural and environmental areas.

In addition to successful financial performance, a company must be ESG rated, demonstrating forward-looking work and concern for future viability and profitability.

When selecting assets to invest its clients' capital, IFO considers factors such as:

LIQUIDITY

**CORPORATE
SUSTAINABILITY**

CAPITALISATION

**COMPLIANCE WITH
SUSTAINABILITY CRITERIA**

RESPONSIBLE APPROACH

The global trend toward responsible investing has become an integral part of Invest Funds Online's strategy. This ensures that customer funds are invested in reliable products that are not harmful to the environment or human health.

Investment decisions that incorporate the ESG rating show consistent results and a high rate of return. ESG indicators help to improve the overall efficiency of investments and avoid losses due to the adverse effects of external factors on company profits.

INVEST IN PERMANENT CHANGE

Identifying growth trends is easy,
but choosing the right companies is difficult.
Megatrend IFOs will help you.

1

IFO Classic – is a structured product that includes low-yield, high-yield assets, including bonds, stocks, options, futures, and venture capital investments, which can generate superprofits if the outcome is favourable.

2

IFO Crypto – includes a set of cryptocurrency assets. This fledgling field, at the beginning of its journey, demonstrates results that cannot be achieved in traditional markets.

3

IFO Startups is a symbiosis of IFO Crypto products, IFO Classic and the addition of a set of investments in new cryptocurrencies and new startup companies.

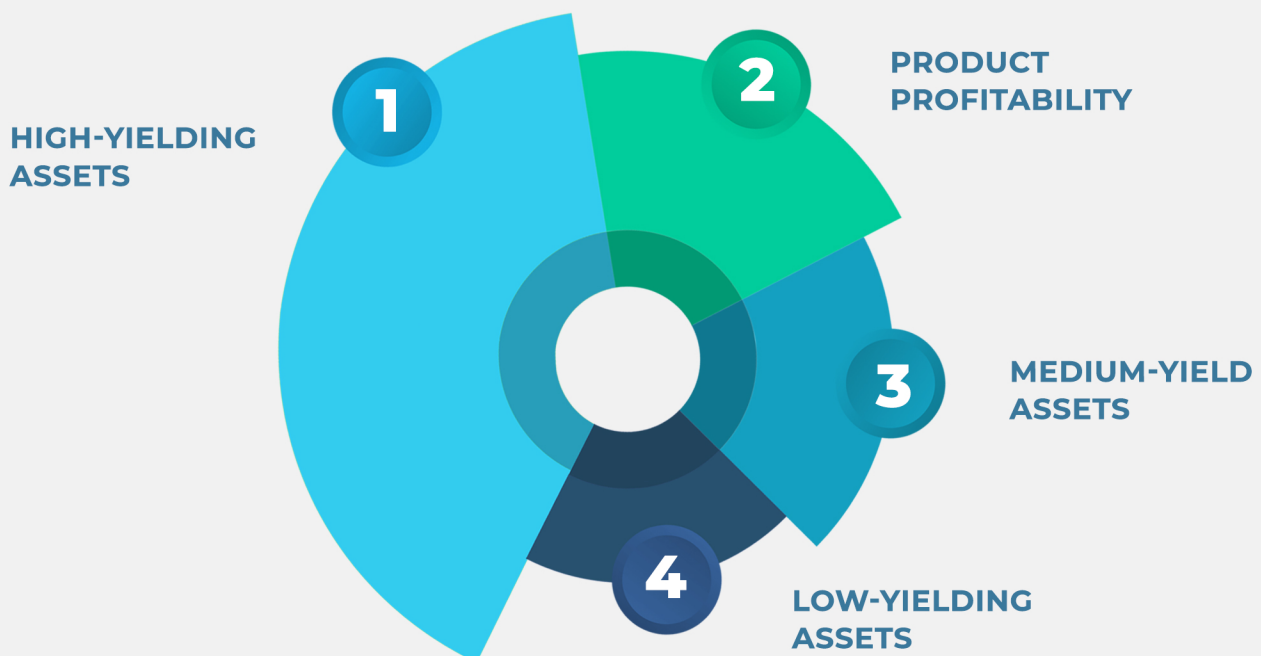

WHAT DOES AN IFO STRUCTURED PRODUCT CONSIST OF?

By combining different financial instruments, it offers non-standard potential profitability. Structured products are designed to meet investors' return expectations and market expectations.

IFO Classic includes asset trading in a variety of companies in strategically important economic sectors, as well as investments in stocks and bonds of undervalued companies. These are high-yield, high-risk venture capital investments. Investments in companies in a crisis, in enterprises that are just starting their activities and in start-ups that, with a favourable outcome, can generate super-profits.

IFO Crypto involves the trading of digital assets in the cryptocurrency market. It is a fledgling field that is at the beginning of its journey.

IFO Startups - is a symbiosis products of IFO Crypto, IFO Classic and a set of investments in new cryptocurrencies and new startup companies.

The structured products developed by the founders of **Invest Funds Online** include high-yield, medium-yield and low-yield assets. This formula ensures average profits and reduces investment risks.
